

EXCLUSIVELY FOR FAMILY OFFICES

UK | EUROPE | MIDDLE EAST | ASIA PACIFIC | USA

With more than 15 years experience as a broker and another decade spent as a Director and Managing Consultant in the Recruitment Sector, I joined Agreus Group in 2015 to lead their UK operations.

Located in London and operating across England, Scotland, Wales and Northern Ireland – I support Family Offices across the UK by providing an elegant and efficient solution to their people problems.

Agreus offer a bespoke and tailored service which unlike others isn't focused on specialism or industry but rather, tailored to each Family Office. After all, every family is different so why should your Family Office work in any other way?

As a result we specialise in placing entry-level through to executive-level professionals within Investments, Legal, Accountancy and Finance and Operational roles.

“ *Jeremy really shaped my career and when I was looking to recruit sometime later, he was the first person I called. I consulted other agencies when hiring and considered opting for an organisation which had more of a niche investment focus but ultimately Agreus was the right-fit, not just due to the trust I have in Jeremy from our former relationship but because we realised we didn't want a great candidate that would leave in a year, we wanted an exceptional candidate who would be with us for life.*

**HEAD OF FINANCE
Single Family Office**
