

EXCLUSIVELY FOR FAMILY OFFICES

UK | EUROPE | MIDDLE EAST | ASIA PACIFIC | USA

I am the Co-Founder of Agreus Group, the exclusive recruitment partner for Family Offices.

We founded Agreus Group in 2010 after recognising a lack of true partners in the Family Office space.

Despite a huge demand for tailored and dedicated specialists, Family Offices were being forced to work with organisations who did not understand the Family Office environment or the people it required and so we decided to establish a consultancy which worked exclusively on their behalf.

We have since spent 10 years building an international reputation as the Family Office specialists, now known for finding elegant and effective solutions to the people problems faced by Family Offices globally.

“ *I had very few business experiences that were as satisfying as interacting with Paul for the recruitment of a personal assistant for a top manager within the company. The requirements for the job were very specific, borderline unusual, but Paul has immediately understood our needs and provided an exactly tailored service. I would recommend Paul without any hesitation for any strategic recruitment.*
